Dear Sir:

FaithBase.Org Center (FBOC) the "information-clearinghouse" for Faith-Based Community Programs nationwide. FBOC has tried repeatedly to obtain information for input into this case without seccuss.

FBOC can and will support Microsoft settlement for the 12,500 Inner City At-Risk Youths Schools, with the inclusion of FaithBase.Org Center as the Ombudsman for the Faith-Based Community. This case must not become another "cash cow" for States without any efforts, or plans in "bridging this technology gap between the have and have not's of this world."

FBOC further pray, that this settlement will not follow the "Phillip Morris enrichment of the States, to the detriment of the real smokers, and those who now, suffer form the second handed smoke."

How can The FaithBase.Org Center help?

UNTIL OUR LORD COMES,  
Remember to pray for the peace of Jer(usa)lem,  
& The United States of America.
